PROFESSIONAL SUMMARY:

Software Engineering undergraduate with a strong foundation in full-stack web development, application development and system design. Hands-on experience building web and mobile applications using Java, JavaScript, TypeScript, React, Next.js, Node.js, PHP, MySQL and PostgreSQL. Developing practical knowledge of DevOps practices including Git/GitHub, Docker, application deployment, environment configuration and CI/CD concepts. Experienced in RESTful API development, database design, responsive UI development and collaborative project delivery. Seeking a DevOps, Software Engineering or Cloud/Platform internship in Sri Lanka to apply software development skills while building practical experience in automation, CI/CD, containers, cloud and production support.

CORE SKILLS

- Programming: Java, JavaScript, TypeScript, PHP, HTML5, CSS
- Frontend: React.js, Next.js, Angular
- Backend: Node.js, JSP, RESTful APIs
- Databases: MySQL, MongoDB, PostgreSQL, Prisma ORM
- DevOps & Tools: Git, GitHub, Docker, VS Code, CI/CD concepts, application deployment
- Mobile: Dart, Flutter
- Web Technologies: Responsive web development, API integration, authentication concepts

WORK EXPERIENCE:

IT Operating Officer — Port City BPO Company, Kollupitiya

May 2026 - Present

Support day-to-day operational activities in a fast-paced business environment while maintaining accuracy and service quality.

Communicate with internal stakeholders and contribute to timely resolution of operational issues.

Apply attention to detail, time management and problem-solving skills to complete assigned activities effectively.

Develop professional experience in teamwork, communication, accountability and process-oriented operations.

PROJECTS:

Silent Help — Full-Stack AI Web Project | Ongoing

Built a full-stack mental health support application with Next.js 15, React 19, TypeScript, TailwindCSS 4, Prisma, PostgreSQL, Redis, Clerk Auth, Google Gemini, and OpenAI. Implemented secure journalling with AES-256-GCM encryption, AI-powered chat, assessment-driven user pathways, PHQ-9/GAD-7 check-ins, offline-first crisis support, and GDPR-style privacy controls including data export, retention management, consent, and right to erasure.

Pet Care Mobile App — Group Project

Developed a mobile application for pet-care management, including reminders and veterinary information.

Contributed to application development using Dart and Flutter in a collaborative project environment.

GitHub: github.com/mishVN/MAD60.git

Wedding Universe Website

Developed a web application focused on wedding planning services using JSP, HTML, CSS, JavaScript and MySQL.

Worked across frontend presentation and database-backed functionality.

GitHub: github.com/Senuka9/Wedding_Universe.git

AQI Monitoring System

Developed an air-quality monitoring web system using PHP and Blade, demonstrating web application development and data-oriented functionality.

GitHub: github.com/Senuka9/AQI-monitor-system

EDUCATION

- | | |
|--|-----------|
| ○ NSBM Green University — BSc. (Hons) Software Engineering | 2023–2026 |
| ○ NSBM Green University — Foundation Program (Computing) | 2022–2023 |
| ○ British Royal Way — Certificate Course in English Language | 2020-2021 |
| ○ President College – Maharagama (GCE A/L) | 2023 |

LANGUAGE SKILLS

- English: Fluent
